Brunei Darussalam's "unexpected treasures" continue to inspire artists and in particular those artists fortunate to live in the kingdom.

The exhibition "A Taste of Brunei" reflects the myriad facets of Brunei life; ranging from the colourful, cultural mix of the population to the almost magical life of the rainforest. This display of contemporary mixed media, traditional oils, inks and watercolours, is a hint of the magic Brunei's diversity has upon artists.

Citibank would like to thank the participating artists for their perspective of this beautiful country and hope that visitors to this exhibition will be encouraged to whet their appetites in the continuous search for the unexplored treasures of Brunei.
